A SONG WRITTEN FOR AMY

To the Stars

Birthday

On the day you were born, my heart knew
A love I'd never known could come true
You filled my heart with something bright
And turned the hush into warm light
I saw a future shining through
And every beat belonged to you

> *Amy, on your birthday, I see*
> *The woman you have grown to be*
> *From one mother to another, near or far*
> *With all my heart, I love you to the stars*

Your caring heart makes room for all
Your kindness answers every call
There's beauty living deep inside
A loving strength you never hide
So thoughtful in the things you do
Your gentle love keeps shining through
And now you are a mother too
I am so proud of all you do

> *Amy, on your birthday, I see*
> *The woman you have grown to be*
> *From one mother to another, near or far*
> *With all my heart, I love you to the stars*

May all the days ahead be kind
May peace and joy be yours to find
Wherever life may lead you through
My pride will always walk with you

> *Amy, on your birthday, I see*
> *The woman you have grown to be*
> *From one mother to another, near or far*
> *With all my heart, I love you to the stars*

My beautiful daughter, shining bright
You fill my heart with love and light
