A SONG WRITTEN FOR STEVE

Endless Journeys Together

Anniversary

Morning coffees, Morning Joe
Your quiet smile can soften any day
We watch the room wake softly in its glow
You make the smallest hours feel safe this way
Your laughter finds me when the world
feels wide
With you, my best friend, always by my side

> *Steve, I love you dearly, more each year*
> *On our anniversary, I hold you near*
> *I love to travel the world with you*
> *My best friend, each road feels bright and new*

At Christmas, you cook for all our family
And fill the house with warmth beyond compare
The table holds the joy you give so freely
Your patient heart is felt by everyone there
Our blended family of eight.
You love them all as if they were your own,
Your strength and humor are gifts that everyone
of us love.
The best grandfather any child has known.

> *Steve, I love you dearly, more each year*
> *On our anniversary, I hold you near*
> *I love to travel the world with you*
> *My best friend, each road feels bright and new*

May mornings find us side by side
With open roads unfolding wide
I'll choose your laughter, heart, and grace
And hold you close in every place

> *Steve, I love you dearly, more each year*
> *On our anniversary, I hold you near*
> *I love to travel the world with you*
> *My best friend, each road feels bright and new*

Our coffee cools in morning light
With you, the world keeps shining bright
