A SONG WRITTEN FOR JEN

To the Moon and Back

Just because

1:23 4:03

In two thousand six our story began Two hard years, you helped me stand Your caring strength kept me strong You stayed beside me all along September two thousand eight came through The light at the tunnel's end, with you [Chorus] Jen, I love you to the moon and back Your loving strength has kept me on track Each day, my heart has more to show My love for you will grow [Verse 2] When I had nothing, you took me in You gave me back the life within We lost your mum Lily in December Our broken hearts will always remember Yet we kept our plans through all the tears And married on the twenty-fifth of July We have never looked back since that day Your loyal love lights up my way [Chorus] Jen, I love you to the moon and back Your loving strength has kept me on track Each day, my heart has more to show My love for you will grow [Bridge] You bake your dreams with so much care I'm so proud of the love we share More in love now than ever before I'll love you more and more [Chorus] Jen, I love you to the moon and back Your loving strength has kept me on track Each day, my heart has more to show My love for you will grow [Outro] The day we married still shines through My life is brighter next to you
