A SONG WRITTEN FOR DAMIEN

Thank God You Came

Anniversary

At the doctor's office, I worked that day
You walked right in and took my breath away
Who knew I'd meet my whole life there?
Your patient heart was everywhere
You make me smile when days feel long
You make me laugh and keep me strong

> *Damien, I thank God for sending you to me*
> *I love the life we share so happily*
> *You make me laugh, you make me feel like a queen*
> *Thank God you came to me*

On November 8, 2008, we said "I do"
You made that day the best I knew
After my mom died, February 25, 2007, you stayed near
Through Crohn's Disease, you calmed my fear
On May 8, 2014, our twins Derek and Dylan arrived
Our whole world came alive
Patient and wise through every turn
Your steady heart kept hope to burn

> *Damien, I thank God for sending you to me*
> *I love the life we share so happily*
> *You make me laugh, you make me feel like a queen*
> *Thank God you came to me*

Eighteen years, and I still choose you
I see forever in your eyes
Keep making every day feel new
With you, my heart will always rise

> *Damien, I thank God for sending you to me*
> *I love the life we share so happily*
> *You make me laugh, you make me feel like a queen*
> *Thank God you came to me*

I see our future glowing bright
I'll hold your hand into the night
Damien, I will love you for the rest of my life
