A SONG WRITTEN FOR MICHELLE

Better by Your Side

Just because

At parties with friends, I saw your light
Your infectious laugh lit up the night
Then loving our dogs brought joy so near
Your patient heart made all things clear
You made a home where I could breathe
You backed the dreams I still believe

> *Michelle, this life is better by your side*
> *You make the hard days light enough to bear*
> *When shadows rise, your love becomes my guide*
> *Everything's better when you're there*

We fixed up Airstreams side by side
Renovated houses full of pride
Financial stress could shake our ground
Scary circumstances came around
Yet you kept faith in what we'd find
With patient hands and open mind
Your loyal love stayed close to me
And made a place where I could be

> *Michelle, this life is better by your side*
> *You make the hard days light enough to bear*
> *When shadows rise, your love becomes my guide*
> *Everything's better when you're there*

Just because, I want you to know
I wish for memories we can share
May precious moments always grow
With all your laughter in the air

> *Michelle, this life is better by your side*
> *You make the hard days light enough to bear*
> *When shadows rise, your love becomes my guide*
> *Everything's better when you're there*

Your laughter warms the home we share
I breathe more freely when you're there
