A SONG WRITTEN FOR RHIAN

Shining Light

She managed my life

1:04 3:08

As sunset fell on Subic Bay
We watched the water catch the flame
The fading light gave way to grey
And somehow nothing felt the same
You stood beside me, calm and true
That evening led me home to you

> *Rhian, you are my shining light*
> *You held my scattered world so tight*
> *I love you more than words can say*
> *My shining light, you light my way*

You pulled me from a gold digger's snare
Your words became my steady light
You proved that someone still could care
On Messenger, you stayed in sight
I lost my mum, dad, and brother
You helped me through those heavy days
You stood beside me like no other
Your kindness showed me brighter ways

> *Rhian, you are my shining light*
> *You held my scattered world so tight*
> *I love you more than words can say*
> *My shining light, you light my way*

You came and managed all my life
When every road was hard to see
I'll choose you through the days ahead
Stay close and keep on guiding me

> *Rhian, you are my shining light*
> *You held my scattered world so tight*
> *I love you more than words can say*
> *My shining light, you light my way*

That Subic sunset still burns bright
I find my way inside your light
