A SONG WRITTEN FOR HAYLEY

Sky Full of Stars

Just because

At last, we met when the time was right
Then you came close, and the world felt bright
Our paths ran near, though we stayed apart
The right time opened up my heart
You've always been there when I need you
You made me a man, I know it's true

> *Hayley, you're my sky full of stars*
> *You make my whole world feel like ours*
> *Just because, I say it's true*
> *Full of stars, it's you*

When you were in hospital, I feared
Not knowing why, the answers stayed unclear
Each silent hour moved slowly by
I wished the worry far away
That fear showed me what matters most
The way you keep my heart afloat
I see our love in all we share
And feel you with me everywhere

> *Hayley, you're my sky full of stars*
> *You make my whole world feel like ours*
> *Just because, I say it's true*
> *Full of stars, it's you*

Whatever comes, I'll stand by you
I'll keep your starlight shining through
When darkness gathers in the air
I'll be the one who's always there

> *Hayley, you're my sky full of stars*
> *You make my whole world feel like ours*
> *Just because, I say it's true*
> *Full of stars, it's you*

The sky above us shines so bright
I see you in its stars tonight
