A SONG WRITTEN FOR AUDREY

# Simple Joys Together

*Just because*

Three years ago, you worked for my ex
After divorce, you still reached out to me
Sabotage made every step complex
You kept our little hope alive for me
My family pulled me far away from you
Still trust kept growing, steady, strong, and true

> *Audrey, choose simple joy without shame*
> *Make every day we share a living flame*
> *Trust what feels right; take my hand to start*
> *Together, heart to heart*

At sunset, hand in hand, we're unafraid
No passing looks can turn us from our way
The beach keeps every promise that we made
Our hearts keep time with every step each day
At Summerlin Diner, some will stare
At every tattoo, piercing's trace
But you give elderly folks patient care
They miss the kindness shining in your face

> *Audrey, choose simple joy without shame*
> *Make every day we share a living flame*
> *Trust what feels right; take my hand to start*
> *Together, heart to heart*

You call me T-Rex; I'm unafraid
You crack my back and take the hurt away
I hold your hand; the promise is made
Our hearts keep time through every passing day
You feel the booming bass deep inside your chest
Electronic nights, R&B Hip Hop, you love them best
Song synced lights up high, you're moving so free
Close to the performer's stage is where you'll be

Just because, I'll hold your hand with pride
Your trusted rock when roads are long
We'll keep what feels right by our side
And make simple joy our song

> *Audrey, choose simple joy without shame*
> *Make every day we share a living flame*
> *Trust what feels right; take my hand to start*
> *Together, heart to heart*

*At sunset, your hand still finds my own*
*And every beat says we are home*
