A SONG WRITTEN FOR DAVID

Choose You Always

Christmas

For months, our messages lit up each night
On social media, you felt so right
You called me your adventure buddy then
Before we met, we talked again and again
Our camping trips made the world feel new
Best friends before our love was true

> *David, please don't break my heart at all*
> *Don't lie, don't cheat, don't hide things away*
> *Love all I am, with every flaw*
> *Forever, I choose you, come what may*

You travelled overseas twice from me
Still, our long talks crossed every sea
You pushed me back when fear took hold
Two years before your heart grew bold
We tell each other all that we know
Best friends wherever we may go
We make each other better, too
And through it all, I still choose you

> *David, please don't break my heart at all*
> *Don't lie, don't cheat, don't hide things away*
> *Love all I am, with every flaw*
> *Forever, I choose you, come what may*

This Christmas, let us hold on tight
Remember why we fell in love tonight
You're my soulmate, my only one
There's nothing we can't overcome

> *David, please don't break my heart at all*
> *Don't lie, don't cheat, don't hide things away*
> *Love all I am, with every flaw*
> *Forever, I choose you, come what may*

Though different songs, we share one tune
I want a lifetime, me and you
