A SONG WRITTEN FOR CLAIRE

Endless Love Journey

Just because

1:23 4:04

In Agios Nikolaos, July ninety-five
Our eyes first met, and my heart came alive
Smart, beautiful, and full of grace
I saw my future in your face
You gave us two children, beautiful and grown
The greatest love we've ever known
My heart knew something strong and true
It started there, with me and you

> *Claire, I will always love you twice*
> *Your laughter makes the hard days nice*
> *Your patient love, my steady light*
> *My amazing wife, my heart's delight*

On our Turks & Caicos holiday
We watched the waves drift far away
When I was working hard, day after day
Your love would light my tiring way
We say "Dodgems" and then we know
The same thought makes our two hearts glow
Your caring hands have seen me through
Each time, I found my strength in you

> *Claire, I will always love you twice*
> *Your laughter makes the hard days nice*
> *Your patient love, my steady light*
> *My amazing wife, my heart's delight*

No special day, I need no sign
To show this loving heart of mine
Through every road, through joy and strife
I'll keep on choosing you in life

> *Claire, I will always love you twice*
> *Your laughter makes the hard days nice*
> *Your patient love, my steady light*
> *My amazing wife, my heart's delight*

You're an amazing mum and wife
The warmest part of all my life
