A SONG WRITTEN FOR SYDNEY

Miles Apart, Hearts Together

Christmas

Back in high school, we were young sweethearts
Chasing dreams with fire in our eyes
We built our home though duty kept us apart
You lit the dark beneath unfamiliar skies
You know what you want and make it real
That fearless spark is made of steel

> *Sydney, our foundation, standing strong*
> *Your strength and guidance lead us all along*
> *I make things happen, you know the way*
> *The brains behind our every day*

When Daniel came, he filled our home with cheer
Journi came, then came a time of fear
Her early start brought two long months inside
The NICU, we stayed right by her side
Now I'm overseas, far away
You keep us strong through every lonely day
You hold down the fort when I am away
It holds us close when I am gone

> *Sydney, our foundation, standing strong*
> *Your strength and guidance lead us all along*
> *I make things happen, you know the way*
> *The brains behind our every day*

This Christmas, though the miles are wide
My heart stays close here by your side
I'll carry our dreams through all we do
And keep making a home with you

> *Sydney, our foundation, standing strong*
> *Your strength and guidance lead us all along*
> *I make things happen, you know the way*
> *The brains behind our every day*

Wherever the military calls us to roam
You turn four walls into our home
