A SONG WRITTEN FOR MELANIE

Endless Hope

Just because

On that first day we met, I somehow knew
You'd change my life forever through and through
This past year, you showed me love so true
You never gave up when the days felt blue
No matter what we've faced, you're number one
I see your light each time the day is done

> *Melanie, I'm sorry for it all*
> *I want a life with you, standing tall*
> *Though we're apart, I pray each day*
> *I know I won't give up, no way*

Right now, we're not together, side by side
Still, all I do is pray for you and me
The distance cannot change what's deep inside
You showed me love; it's how I came to see
You never gave up, you stood by me
That love has shown me what love can be
I'm sorry for all that we've gone through
I want a future life with you

> *Melanie, I'm sorry for it all*
> *I want a life with you, standing tall*
> *Though we're apart, I pray each day*
> *I know I won't give up, no way*

Just because I need you to know
My hope for us will always grow
I want a future life with you
No matter what we're going through

> *Melanie, I'm sorry for it all*
> *I want a life with you, standing tall*
> *Though we're apart, I pray each day*
> *I know I won't give up, no way*

I hold our future in my prayer
And keep your love with quiet care
