A SONG WRITTEN FOR NEO

Dreams Along the Road

Just because

That old motorhome, Norfolk bound
Our laughter made a warm, bright sound
You found adventure mile by mile
And made the long road worth the while
Your clever jokes lit up the day
I loved the joy you brought our way

> *Neo, I love you, proud of who you are*
> *May every dream you build take you far*
> *May you achieve all you long to do*
> *Let your dreams come true*

On the speed boat round Brighton, we flew
With spray and laughter in the blue
At Newhaven, the motorhome stayed
You turned each little plan to be made
Your hands design what feels brand-new
Your brave ideas keep shining through
When Nanou's illness brought hard days
You met those days with steady grace

> *Neo, I love you, proud of who you are*
> *May every dream you build take you far*
> *May you achieve all you long to do*
> *Let your dreams come true*

I'll be beside you when you try
To reach the dreams that fill your sky
Keep your bright and generous way
Let joy come find you every day

> *Neo, I love you, proud of who you are*
> *May every dream you build take you far*
> *May you achieve all you long to do*
> *Let your dreams come true*

May every road hold something bright
I'll love you through each day and night
