A SONG WRITTEN FOR KAYLA

Unwavering Love

Just because

You were the sober driver that night
I had that dance-off on the floor
You smiled and made the whole room bright
We had a time worth dancing for
First “I love you” made me brave
“I love your face” slipped out instead
That funny truth is ours to save
I meant each word that I had said

> *Kayla, when the whole world loses light*
> *We’ll never leave you on your own tonight*
> *No storm will make our love give way*
> *I’m not going anywhere*

At our wedding, I could not look away
You were the most beautiful I’d seen that day
On honeymoon in Cuba, we felt free
We loved each day, just you and me
When our first child came, time stood still
Then our second gave more love to share
Years ago, you felt I broke your trust
We keep on working through the dust

> *Kayla, when the whole world loses light*
> *We’ll never leave you on your own tonight*
> *No storm will make our love give way*
> *I’m not going anywhere*

When depression turns the daylight gray
I’ll stay beside you all the way
When life is hard, you won’t stand alone
Our love will always be your home

> *Kayla, when the whole world loses light*
> *We’ll never leave you on your own tonight*
> *No storm will make our love give way*
> *I’m not going anywhere*

I see your eyes, still shining bright
And hold you close through every night
